CCFT - 6/8/88 S. Rohrbach

Edwin Beamer - Geologist

- "white conglomerate mixed w/red shale" - ?

- air rotary drilling n stratigraphy

Aides

Kanjorski

must

~~be~~

~~there~~

} should have walked
the site & observed
geolog) - not
generalized

pt. 940 - surf. H₂O flow - Hickory Hills - surf H₂O flow
(from site?)

Quarterly sampling - want all residents (15)

- composite sampling (PADER) - highest contam. - where?

} Pond Creek }

' trout - no longer
there

4/86 TAT's -> colored H₂O sampled - ?

- dish cloth taken to be analyzed - results

Filtered samples "totally unacceptable" "judicious"

} particulate Pb moves in GW - "that is what is hazardous"

EPA policy / guidelines out in June → non-filtered samples required

→ PL

Kathy D. -

o/s contractor - tilt & non-filt. on splits -

Site worker. (o/s) - claims people buried things on-site → L. Elder

- need info source - name, H to Nanci

- ♀ worker at (o/s) - 3 children - all w/ diseases (?) went to work w/her drank H₂O

(o/s) "soil samples not enough - stat soil scientist - Hbg. - want written statement that we will go deeper if finds

TCL list, PP list 2 copies

Volatiles - want these sampled for - o/s contractor ?
sea. media

AR500360

Mr. Rock - no mw located along this end of site - wants mw at ^{on} site property

{ NX core barrel }

- Oriented core barrel assembly - want to use this - in sampling, drilling
- Piezometer - use of this - lysimeter - used also to determine lateral flow of H₂O along bedrock (?)

"Geologists (3) wouldn't sign their names to w_f" to determine hydro characteristics

↳ written response to issues in meeting ???

- Children - blood testing for Pb - to contact state health dept.
- other testing - 3 miscarriages - Enymoyer, Martincheck - other problems
Pb poisoning diagnoses - NJ

Risk Assessment - ..

Health screening

{ ATS DR }

Mr. Rock medical reports wife - "loaded down" w/ As, Cu - ?

= trailer behind pit men carrying "heavy" boxes - batteries
- after Brenner took over

Seasonal A: after heavy rains - intermittent contam - want sampling done

TATS?

if given notice of rain

Tom Voltaggio - Nanci to check

(fat soluble)

divalent cations - mosses, plant life - relate metals

wants to know whether " enter food chain

- test algae, insects, fish

u/s contr?

related metals flow downstream w/ H₂O

↓

sample for soluble Pb

→ sample moss, algae in pond

PADEP to take whole fish sample?

== would be satisfied

Dr. Stiller

David?

Check?

lives at bottom of Mill Pond Creek

AP 5000 w/ this
